## Certifications

Google Cloud Skills Boost – Generative AI Fundamentals

## Projects

- **AI-powered Attendance System**  
[github.com/OopsNidhiCodes/AI-POWERED-ATTENDANCE-SYSTEM](https://github.com/OopsNidhiCodes/AI-POWERED-ATTENDANCE-SYSTEM)  
A smart system that captures class images at intervals and uses multi-biometric features like face, iris, and gait recognition to automate attendance tracking.
- **Medical Diagnosis Agent**  
[github.com/OopsNidhiCodes/Medical\\_Diagnose\\_agent](https://github.com/OopsNidhiCodes/Medical_Diagnose_agent)  
A machine learning-based tool that analyzes symptoms or medical images to predict possible health conditions and suggest remedies or medications.
- **Assignment Notifier**  
[github.com/OopsNidhiCodes/erp-assignment-agent](https://github.com/OopsNidhiCodes/erp-assignment-agent)  
An automation script that logs into the university ERP system, extracts pending assignments, and sends daily WhatsApp reminders to students.

## Languages

**Hindi:** Native Language

**English:** Advanced (C1)

**German:** Elementary (A2)

## Activities and Honors

- Solved 100+ LeetCode questions
- Participated in three hackathons
- Core member of the competitive programming club
